# SolShield

**Guillaume Claret** 🥖

# Problems

- Audits are expensive 💰

- Code evolves 🔄

- Long-term partnership 🤝

# Solution

AI + Formal Verification

# Product Overview
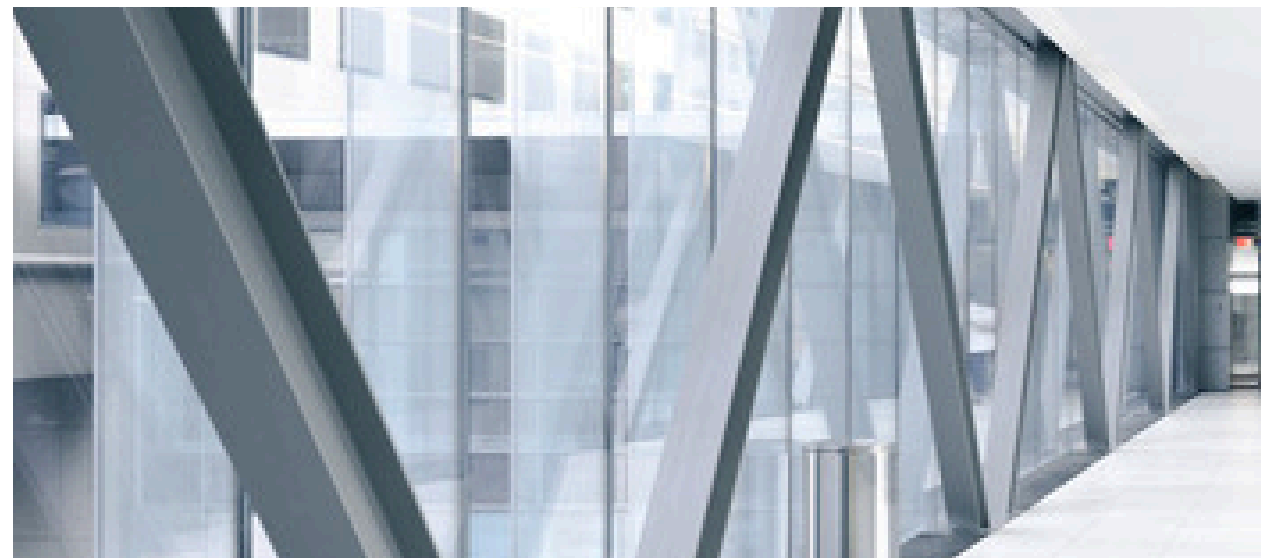

- Subscription based

- Green check ✅ when code validated

- Mostly automated

- Checklist of common vulnerabilities

# Market

All new Solana projects

# Business Model

**Tier 1** — Basic checks, fully automated

**Tier 2** — All checks, half automated

**Tier 3** — Manual audits through partners

# Competitive Advantage

- ## Automated ———

- ## 100% reliable ———

# Goal

Reduce friction to make Solana smart contracts

# Thank You

Happy to check your contracts!
